

# Heat Press Settings Log Template

Record material, blank, transfer, actual settings and wash-test results without invented universal temperatures.

| Field                        | Your record |
|------------------------------|-------------|
| Material                     |             |
| Blank                        |             |
| Transfer type                |             |
| Temperature / unit           |             |
| Time / unit                  |             |
| Pressure: machine setting    |             |
| Peel                         |             |
| Wash test: conditions / date |             |
| Result                       |             |
| Notes                        |             |

Follow the material, transfer and equipment manufacturer instructions. Record your actual settings; this sheet supplies no recommended temperature.

Use a new sheet for each record. For itemized work or additional entries, attach another clearly identified sheet.
